

GPS NC Faculty Grants

Content Management & Page Production: Barbara Steele · Ongoing

Two funding cycles, eleven faculty-led projects, dozens of collaborators across campus and community — organized into one page visitors can easily scan.

2 FUNDING CYCLES	11 FUNDED PROJECTS	\$10K PER GRANT
---------------------	-----------------------	--------------------

Since 2024, GPS NC has awarded grants of up to \$10,000 to UNC School of Government faculty for projects that deepen communities' capacity to respond to the drivers of change outlined in the *Managing Disruption* briefing book. Each project entry is built consistently: a plain-language summary, named collaborators with title links, and tags connecting the project back to its relevant driver(s) of change — letting visitors browse either by project or by issue area.

SAMPLE ENTRIES — 2026 COHORT
